

Deck Sweepers / Deck Cleaners

Weight:
net: 1159 kg

Dimensions:
Length: 2005 mm
Width: 1345 mm
Height: 1345 mm
With overhead guard: 2018 mm

This is a self propelled industrial sweeper that effectually will clean the deck in proper and safe way. The engine is based on diesel and has a hydrostatic transmission enable to climb the ramps.

There is a self emptying container for dust, all controlled from the driver position.

In addition to the main broom there are 2 sidebrooms on each corner front, to enable it to clean difficult corners.
