

# Höegh Autoliners Stowage Standard - High and Heavy

## Minimum distances

Bumper to bumper	40 cm
Side to side	10 cm
Side to obstruction	15 cm
Bumper to bulkhead	40 cm
Overhead	10 cm
Walkway	50 cm
Emergency exit and ladders	50 cm

High and heavy cargo to be stowed head out, however when athwartship stowage is necessary two trailer chocks per tyre should be utilised

Special attention must be given to low clearance vehicles or long overhang, when entering or leaving ramps

All distances are to be considered as guidelines only.
